- **ash Consultants**
(3D Architectural Visualisation Studio)

ash Consultants is the interactive production arm of ash Consultants Pvt. Ltd. We create stunning architectural visualizations, 3d renderings and animations. Combining extensive experience in many forms of digital media, we can provide not just renderings and animations, but a complete combination of web, video, DVD and virtual digital technologies. Due to our passion, production quality, timely delivery and flexibility our clients are the most satisfied working with us. We're geared for high quality, detailed architectural presentation work that is finished like no other. Our 3D Walkthroughs make it possible for potential buyers to do exactly that, direct from their PC, using high-quality computer generated video technology. As per your desires of style we can devise or reflect the interiors to real time images. We can combine the ideas of engineers, designers and planners into one whole picture for perception. Our dynamic and interactive presentation solutions are used by clients to enhance corporate image, product launches, educating their customers and communicating their message with clarity and intensity for maximum impact.

We had undertook over 400 projects, completed with satisfied customers.

our clients

The Creative Team befittingly hailed as the heart and soul of the agency. Over the years, working with big time REAL ESTATE Clients like ABL, Akshat Apartments, Pearl Spytech, Felicity, ARG etc.. this bunch of wordsmiths and stroke-masters have evolved themselves to adorn the roles of creators of concepts. Identifying the consumer's mindset and constantly working to achieve their satisfaction. In a world where the deadline was yesterday, this team thrives with an accelerating pace to catch up on day before yesterday (and is mighty proud about it too)
